Mentor-Coach Processes for School Leaders is a virtual course that provides training for those who want to enhance their skills and expertise in mentoring and coaching approaches via real-world activities and job-related applications. Participants actively engage in large/small group learning, self-assessment activities, mentor projects, and immersion in individual coaching sessions. Topics include the roles of mentor and coach, qualities of questions and listening, development of curiosity and reflection, enhancement of ownership and responsibility, and strategies and tools to use as a mentor or coach. Additional time is included to explore the impact of COVID-19 on colleagues and staff members – and how to handle these challenges as a mentor and a coach for school leaders.

The cost for the 15-week course (October 21, 2020 – January 27, 2021) is $600. Additional textbooks may be required. The course is organized for 90 recertification points.
